

Phase 1: Interviews with Stakeholders

- 9 Carers, 10 Educators, 11 Clinicians
- Interviews of their AAC experience
- Identify barriers, facilitators, and what support is needed?
- Themes: *Stakeholder Knowledge, Stakeholder Attitudes, Resources, User Willingness, Device Fit*

Communication Partner Training w/ Rocky Bay

Phase 2: Training Feasibility & Efficacy Research

- 101 Participants (28 carers, 40 educators, 33 clinicians)
- Practicality: Workshop length, Timing, Time commitment
- Acceptability 53.6% recommended very likely, 42.9% recommended likely
- Implementation: Agreed that it was good training focused only on their group
- Integration: Modelled and create more AAC opportunities
